Earth Unit Assessment

Please choose 2 of the 3 prompts to write about. Make sure to use proper grammar, spelling, and vocabulary found throughout the lessons.

1. Discuss the formation of the earth including terms such as: Pangea, plate tectonics, and the layers of the earth.
2. Discuss the rock cycle; please describe the differences between minerals, igneous rocks, sedimentary rocks, and metamorphic rocks.
3. Discuss the natural phenomena of earthquakes and volcanoes; what causes these events and how do people prepare for them today?
