

Are you interested in serving as a mentor for undergraduate women pursuing earth and environmental science careers?

PROMoting Geoscience Research, Education, and Success

PROGRESS supports undergraduate student's interest in Earth Systems and Environmental Science careers through peer/professional development and connection to a mentor.

- ★ Currently recruiting women in all career stages.
- ★ Mentors are expected to:
 - Participate in a 1-hour virtual training session and
 - Meet in-person with their mentee once per semester to check-in, provide support, encouragement, and guidance.

In Fall 2024, we are recruiting mentors in the DC/Baltimore area for students from these schools:
