

# Climate Opinion Resources for Educators

Jennifer Marlon and Abigail Cheskis  
Yale Program on Climate Change Communication  
May 15, 2018

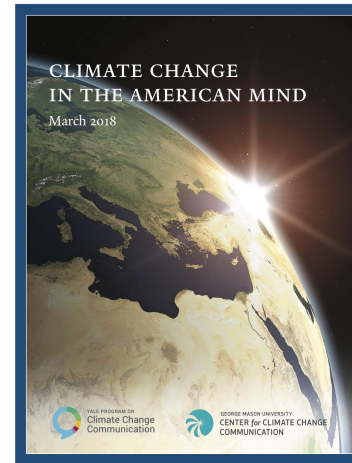

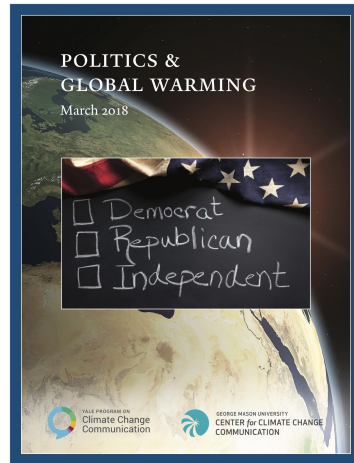

# Overview

- YPCCC introduction
- Local climate opinion data
- Tools for educators
- Questions and feedback

# Introduction to YPCCC

# American Teens' Global Warming Literacy (2010)

- 54% think global warming is happening
- 57% think global warming is caused mostly by human activities
- 46% understand that cars and trucks contribute to global warming
- Only 18% have heard of ocean acidification

**But what do people think at the local level?**

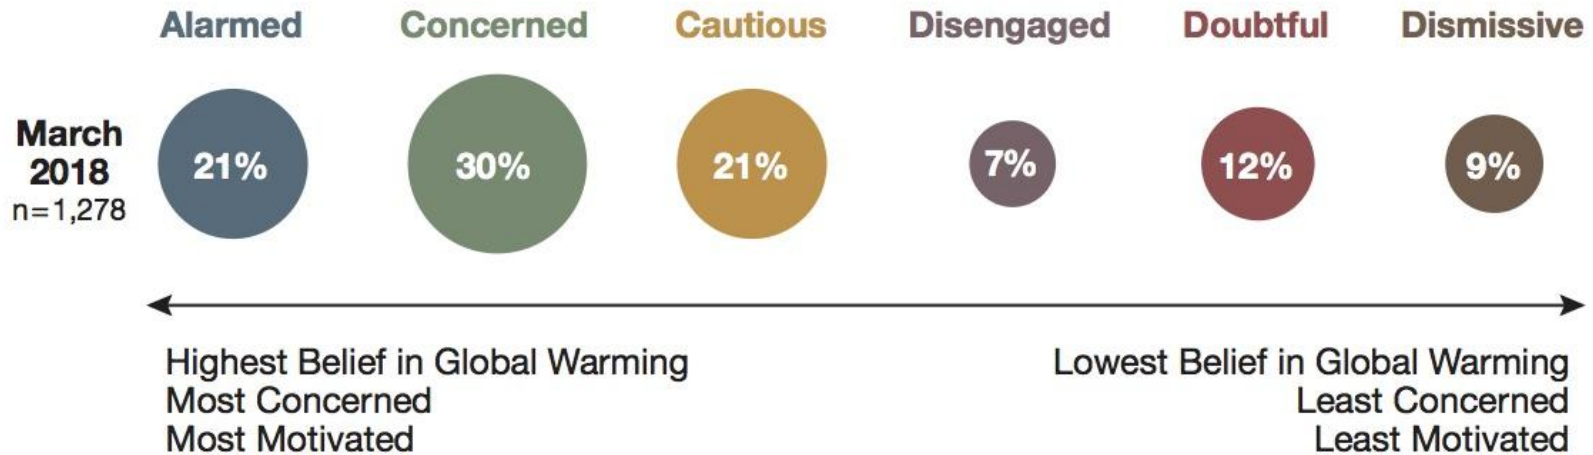

YALE CLIMATE OPINION MAPS

# Classroom Tools

# Six Americas/SASSY

---

# Yale Climate Connections

Episode example:  
Venice is building huge gates  
to keep out the rising seas.

# Questions and Feedback

- Our Questions:
  - Would it be useful if we provided discussion questions with Climate Connections episodes?
  - Do you use Kahoot! and/or Google classroom?
  - Would SASSY be useful for you as a teaching tool?
- Your questions: let's hear them!
