

MORE THAN A BUZZWORD

Sustainability has been a part of our legacy since designation as a Land Grant university in 1890. Learn about our mission...

Sustainability @ **FAMU**

Creative Collaborations

A photograph of two female scientists in white lab coats working in a laboratory. One scientist is holding a small vial, and the other is looking at it. There are various laboratory glassware and equipment in the background.

Accelerated Innovations

A photograph of a group of six diverse students posing in front of a Florida A&M University building. The students are wearing various casual clothing, including t-shirts and a button-down shirt. A large stone monument with the university's name is visible in the background.

Engaged Scholarship

The Sustainability Institute supports Florida A&M University's vision to be a living laboratory of innovations and learning experiences that generate global solutions. Capitalizing on the strengths and capabilities across the full spectrum of the university, the Sustainability Institute works with university and external partners to converge, cultivate, and inspire action and leadership for healthier, more prosperous communities. [Learn about our unique approach.](#)

SUSTAINABILITY @ FAMU

Sustainability at **Florida A&M University** is about the teaching, research and application of environmental and resource stewardship so people and planet prosper. The **Sustainability Institute** serves as the hub of all sustainability-related efforts at the university, bringing students, staff, faculty and the community together around creative collaborations.
