

Resources from **NAGT** for **STUDENTS**

LEARN MORE

nagt.org/nagt/students

NAGT offers resources and support for both undergraduate and graduate students. Undergraduates completing programs in geoscience or teacher education, graduate students who anticipate academic careers, and any students who are conducting research in geoscience education are especially encouraged to become members of NAGT.

Resources for UNDERGRADUATE STUDENTS

Undergraduate Field Courses and Scholarships

LOOKING FOR A FIELD CAMP?

Browse a list of field camps offering in-person, hybrid, or online opportunities. Field camp directors and instructors add camps on an annual basis.

SCHOLARSHIPS FOR FIELD STUDY

These awards are available for students attending field courses at any time of year and can be applied to face-to-face, virtual, or hybrid courses. The intent of the awards is to support students' participation in intensive field courses in any aspect of geoscience.

Awards

OUTSTANDING TEACHING ASSISTANT (OTA) AWARD

This award recognizes undergraduate and graduate students for their work as teaching assistants.

Leadership Opportunities

NAGT/USGS COOPERATIVE SUMMER FELLOWSHIP PROGRAM

Started in 1965, the NAGT/USGS Cooperative Summer Fellowship Program is the longest continuously running internship program in the Earth sciences. Since it began, more than 2400 students have participated in this program with an impressive number of these individuals becoming full-time employees of the USGS. Department chairs, program heads, and field camp directors nominate students for the program.

Workshops

CAREER PREP WORKSHOP

The Preparing for an Academic Career workshop is held at the biennial Earth Educators' Rendezvous. Graduate students and post-docs interested in academic careers are encouraged to attend. Workshop leaders from a variety of institution types and career paths will provide guidance and information that will help participants to be stronger candidates for academic positions and to succeed in academic jobs.

TEACHING ASSISTANT WORKSHOP

As a graduate teaching assistant (TA), you may be the first point of contact for a student needing help, and you play a critical role in creating inclusive and supportive learning environments. This workshop is designed to help you build your confidence and skills in the various roles that you play in supporting undergraduate geoscience students. You will leave with new ideas and strategies, and an action plan for continuing to build and document your skills.

CAREER PREP WORKSHOP GRANT

Thanks to generous donations from NAGT members and donors, a fund was established to support students attending the Preparing for an Academic Career workshop held at the Earth Educators' Rendezvous.

Leadership Opportunities

NAGT LEADERSHIP OPPORTUNITIES

Several NAGT committees, divisions, and sections have student representatives. Find out more about committee composition and submit a nomination form to get involved!

Awards

OUTSTANDING TEACHING ASSISTANT (OTA) AWARD

This award recognizes undergraduate and graduate students for their work as teaching assistants.

Join

Member Benefits for Students

- Focused professional development opportunities for teaching assistants and future faculty
- Access to teaching strategies in our member publication, In The Trenches, and to new research in the Journal of Geoscience Education
- A monthly newsletter to keep you in the loop, including job announcements and award deadlines
- Professional networking and community-building opportunities
- Recognition for your teaching at the national level with the Outstanding Teaching Assistant award
- Scholarships for field study and grants for professional development
