

Sample Data from “Energy and the Environment”
29 groups playing

Period	# Drive	# Bus	# Sick
1	22	7	11
2	24	5	12
3	25	4	12
4	19	9	9
5	17	12	8
6	19	9	9
7	18	11	9
8	10	19	5
9	8	21	4

Periods 1-3 use the reservation values from the instructions

Periods 4-7 use the part 2 reservations values (heterogeneous of costs/benefits of driving)

Period 8 was a student suggested policy “only men drive”

Period 9 was a student suggested policy “charge a \$3 parking fee and redistribute the money among everyone who gets sick.”
